UI PROGRAMMER / CONSULTANT

Infosys Ltd.

Nov 2017 - Present

Currently working on Community Portal application based on eCommerce business model for Johnson Controls using Angular 5.0. Have worked on UI/UX requirements and Mobile Responsive requirements for an existing application.

TECH LEAD / UI PROGRAMMER

Tech Mahindra Ltd.

July 2015 - Oct 2017

Actively involved in Innovative Idea Initiative for User Interface for Telia Company. As part of the initiative I used BackboneJS, ReactJS, Angular 2.0/4.0, RxJS and Responsive Web UI over the course of 2 years in order to develop Order Management (ReactJS) and Service Management applications (Angular).

TEAM LEAD / UI PROGRAMMER

Cognizant Ltd.

Oct 2007 - June 2015

Worked in following technologies like Javascript, Jquery, HTML, CSS as part of project requirements. Have also worked on packaged solution like Siebel CRM in Healthcare, ePharma and Telecom. Was instrumental in developing intuitive UI under Siebel OpenUI (Facade pattern) umbrella (OneView Dashboard).

I created this resume using React Components.
